Forest Service to Begin Road Repair Project on Mountaintop District

SAN BERNARDINO, Calif., November 20, 2009 – The San Bernardino National Forest will be reconstructing Polique Canyon Road, 2N09, near Big Bear Lake beginning Tuesday, November 24th and continuing through Spring 2010. The road, which begins at Highway 38 about 2 miles east of Fawnskin and ends at Holcomb Valley Road, 3N16, will be closed intermittently to public use from November 24th until inclement weather precludes work and then will resume in the spring. The road will remain open from Thanksgiving Day through November 29.

The funding provided for the reconstruction of this National Forest System Road comes from federal appropriations to enhance water quality through the reduction of erosion and sedimentation in forest streams and waterways.
